

WHEATBELT SCIENCE HUB

Strategic Plan 2016-2018

Vision

Inspiring the discovery and excitement of science

Mission

To foster partnerships that connect science and people

Guiding Principles

Inclusive | Credible | Inter-disciplinary | Partnership-based

Strategic Objectives-

Inclusive

1. Engage a diverse audience in regular STEM activities across the wheatbelt
2. The hub values its committee, contractors and volunteers and actively encourages participation and diversity

Credible

3. Organise or participate in activities and share STEM information that is accurate and current
4. The hub has representatives with relevant experience and qualifications to influence and provide input into science engagement in the wheatbelt
5. The hub has a strong framework for management of hub resources

Inter-disciplinary

6. Provide opportunities for those from a range of STEM disciplines, as well as other industries, to network and collaborate
7. The hub has representatives from a range of STEM disciplines

Partnership-based

8. Seek funding partners to enable WSH to carry out its work in the wheatbelt
9. Deliver activities with a partnership-based approach
10. Build on existing science activities by promoting, communicating and collaborating with partners
